

REMARKS

Applicants and Applicants' attorney express appreciation to the Examiner for the courtesies extended during the recent interview held on October 14, 2004.

As indicated above, claim 1 has been amended to clarify the term "sub-component-oriented character" by incorporating language describing that term from paragraph [0049].

Similar language appears in independent computer program product claim 11. Because independent system claim 22 uses the term "pixel sub-component" throughout the claim, Applicants do not believe that any clarification is needed. Accordingly, neither independent computer program product claim 11 nor independent computer system claim 22 has been amended by this paper.

In the event that the Examiner finds any remaining impediment to a prompt allowance of this application that may be clarified through a telephone interview, the Examiner is requested to contact the undersigned attorney.

Dated this 29th day of October, 2004.

Respectfully submitted,
